**Beware of "spoof e-mail" using our company name offering a business opportunity
(Fourth report)**

We had been investigating a series of emails and found out as it is a special fraud. In the emails, they used a misleading domain "@hsc--cranes.com", our company name and president name, pretending an inexistent officer of our company or a recruit consultant and provided fake recruit information targeting individuals mainly in the US and Canada.

In the context of the fact, we applied for the "Arbitration Procedure to Transfer the Domain to HSC" based on the Uniform Domain Name Dispute Resolution Policy (UDRP), against the World Intellectual Property Organization (WIPO) on April 3, 2020. On June 9, 2020, our assertion was admitted and the domain became under our control.

In the event that the similar case occurs again, we will take appropriate action including the legal actions stated above to prevent any damage and loss.

Your kind understanding is highly appreciated.

Should you have any further queries or wish to contact us regarding a suspicious e-mail, please use the following [Inquiry Form](#).

Thank you.
